

MULTI RUBINETTO

What I love is the convenience of the Multitap™. Instant boiling water combined with the regular hot and cold water helps me keep cooking, with what I need always at my fingertips.

-Guy Grossi

ITALIANITY

Over centuries, we have marveled at how Italians have enhanced design and fashion leaving their cultural mark on the world. Leading the way, forging new ground, pushing the boundaries as part of a deep-seated desire to really embrace life's rich tapestry.

We love the passion, craftsmanship and heritage put into everything Italians do, and now they are the creative drivers behind InSinkErator's premium range of tapware Multitap™, or as the Italians say *Multi Rubinetto*.

The reasons we fall in love with Italian products is their Passion and Purpose and Multitap is a testament to this commitment. We are proud to be able to offer instant steaming hot water as a function of a standard kitchen tap mixer.

Designed and manufactured in Italy this high quality tap brings contemporary style to new and existing kitchen spaces.

MULTITAP™ 3N1

**Style.
Convenience.
Craftsmanship.**

The convenience of instant steaming hot water at the flick of a lever. No more waiting for the kettle to boil.

Instant filtered steaming hot water. Unlike what you would expect from a standard kitchen tap mixer.

The steaming hot water lever has a safety locking mechanism.

Hot water as you would expect from a standard kitchen tap mixer.

Cool water as you would expect from a standard kitchen tap mixer.

WMK26238

Introducing a new level of convenience

The Multitap™ 3N1 has endless applications that will save you time in the kitchen. Here are just a few:

1. Making tea and coffee

2. Blanching vegetables

3. Preparing noodles

4. Preparing baby bottles

5. Cleaning

6. No waiting for water to run warm for washing up

NEOTANK™

**Compact.
Reliable.
Innovative.**

The Multitap™ is supported by our next generation Neotank. It features a compact design that is affixed to the cupboard wall conserving space usage. This upgraded tank has precise adjustable temperature control up to 98 degrees celsius and has been designed with a welded construction, eliminating seals to improve lifespan.

The 2.5L capacity allows the consumer to heat only what they need while conserving energy for environmental stewardship. The NeoTank offers quiet energy efficient operation and the revolutionary new design gives consumer peace-of-mind through quality and reliability.

The whole kitchen looks
so stylish when finished
off with the Multitap™.
The form and finish is well
considered from every aspect.
-Guy Grossi
